Billy is a Materials Scientist at The Lab with a specific focus on Metallurgy. He assists in the preparation and testing of samples, assisting in metallurgical forensic investigations, operating equipment such as Scanning Electron Microscopes, documenting samples and preparing reports, as well as liaising with clients.

Billy graduated from The University of Manchester with a degree in Materials Science and Engineering. During his time at the University of Manchester, Billy took part in a variety of individual and group projects covering a range of engineering materials. These covered topics such as Engineering Alloys in Service, Structural Integrity, Performance Polymers, and Nanomaterials. Having studied many Materials Science and Engineering topics as a generalist, Billy chose to specialise in Metallurgy and Corrosion as this was most applicable to his career goals.

Academic Qualifications

Materials Science and Engineering BSc (Hons)

Previous Employment

Z. HINCHLIFFE & SONS LTD HARTCLIFFE MILLS as Factory Operative
